WHEN REALITY IS NOT ENOUGH

Since 2015, we empower people to obtain critical skills to prevent, prepare for, and handle dangerous situations through immersive digital training.

We transform traditional safety training into accessible, intuitive, and realistic learning experiences. Trusted by organizations worldwide, we set a new standard for quality, transparency, and accessibility in safety training.

Invented in Sweden.

A SMARTER WAY TO TRAIN

Vobling VR Fire Trainer delivers immersive, realistic, and effective training that builds confidence and save lives.

APPROVED BY

Digital extinguishing with VR is permitted by DSB as part of the official ADR practical training curriculum in Norway.

Complies with the requirements of SVEBRA 2026:3 Guideline for Practical Fire Extinguishing Training

Complies with the requirements of SBF 2022:1 Annex 3, Section 2.3 (Extinguishing Simulator Systems)

FULLY IMMERSIVE

Interact with the fire scenario using natural hand movements - no controllers needed.

Meta devices: Full hand tracking enables natural, controller-free interaction.

HTC : Interaction via controllers only.
Feel the stress of alarms and use a real extinguisher in VR.

EFFICIENCY

This combination of physical equipment and immersive software makes it possible to train multiple fire scenarios within minutes.

MIXED REALITY

Bring VR fire training into real environments.

Meta devices: Full support for passthrough and hand tracking, enabling location-based, interactive scenarios.

HTC devices: Standard VR, with physical fire extinguishers for realistic training.
Train multiple scenarios quickly and realistically.

PERFORMANCE

Measuring the user's training performance in each fire scenario, time to extinguish, remaining extinguisher medium and how much smoke the user inhales.

REALISTIC FIRE SCENARIOS

Train across realistic environments with physics-based fire simulation. Fire spreads naturally through different materials and reacts realistically to different extinguishing agents.

VOBLING TRAINING PLATFORM

Included with every VR Fire Trainer.
Control, plan and manage your VR training from one platform. Start and manage training sessions, organize programs and control what happens in the headset - remotely.

A SMARTER WAY TO TRAIN

The VR Fire Trainer is a fully mobile digital fire safety solution that simulates real fire scenarios. Integrated with a real extinguisher, it provides a hands-on experience anytime, anywhere.

BRIEF INTRODUCTION

FIGHT FIRES WITHOUT FIRE

COST EFFECTIVE AND ACCESSIBLE

Train more people for less with the VR Fire Trainer, the most affordable fire safety solution. Practice anytime and anywhere without weather restrictions, travel, or extra materials.

SAVE LIVES

Learn to fight fires safely in a realistic and risk-free environment. Different fire types and extinguishers while receiving real-time feedback to improve your response.

ENVIRONMENTALLY FRIENDLY AND SUSTAINABLE

No chemicals, no waste, no pollution. The VR Fire Trainer is the safest and most sustainable way to learn fire safety. Reduce emissions and costs with our fully digital training solution.

LEARNING QUALITY

Track performance, receive insights, and improve memory retention for faster and more effective emergency response.

THE PRODUCT INCLUDES

A complete VR Fire training solution that combines realistic fire scenarios, physical equipment and smarter training management.

1

INTERACTIVE EXTINGUISHER

A real fire extinguisher that connects to the VR application. Feel the weight, aim and extinguish in a safe controlled environment.

2

VR FIRE TRAINER APPLICATION

Immersive fire training with realistic scenarios and physics-based fire simulation.

3

VOBLING TRAINING PLATFORM

Plan, launch and manage training sessions. Track results, get insights and improve performance - all in one platform.

VR GLASSES ARE SOLD SEPARATLY

Meta and HTC devices are supported.
See next page for more information.

*Mixed reality is only available on Meta

WE ARE ***FIRE TRAINERS***

“ It’s not just about knowing the steps. It’s about making sure those steps are automatic under pressure. We want staff to feel comfortable using an extinguisher so that in an emergency they don’t freeze. The VR Fire Trainer helps bridge that knowledge gap in a way that is both sustainable and cost-effective.

This training is building confidence.

Before, many staff were hesitant to even touch a fire extinguisher. Now, they know exactly what to do. And in an emergency, that confidence could make all the difference.

- Mike Hoffman

Fire safety consultant, Covenant Health

PROUD USERS OF THE **VOBLING VR FIRE TRAINER**

AND MANY MORE

FROM TRAINING TO INSIGHT.

Get the visibility you need to
make smarter decisions.

REAL-TIME OVERVIEW

See what's happening
across your organization.

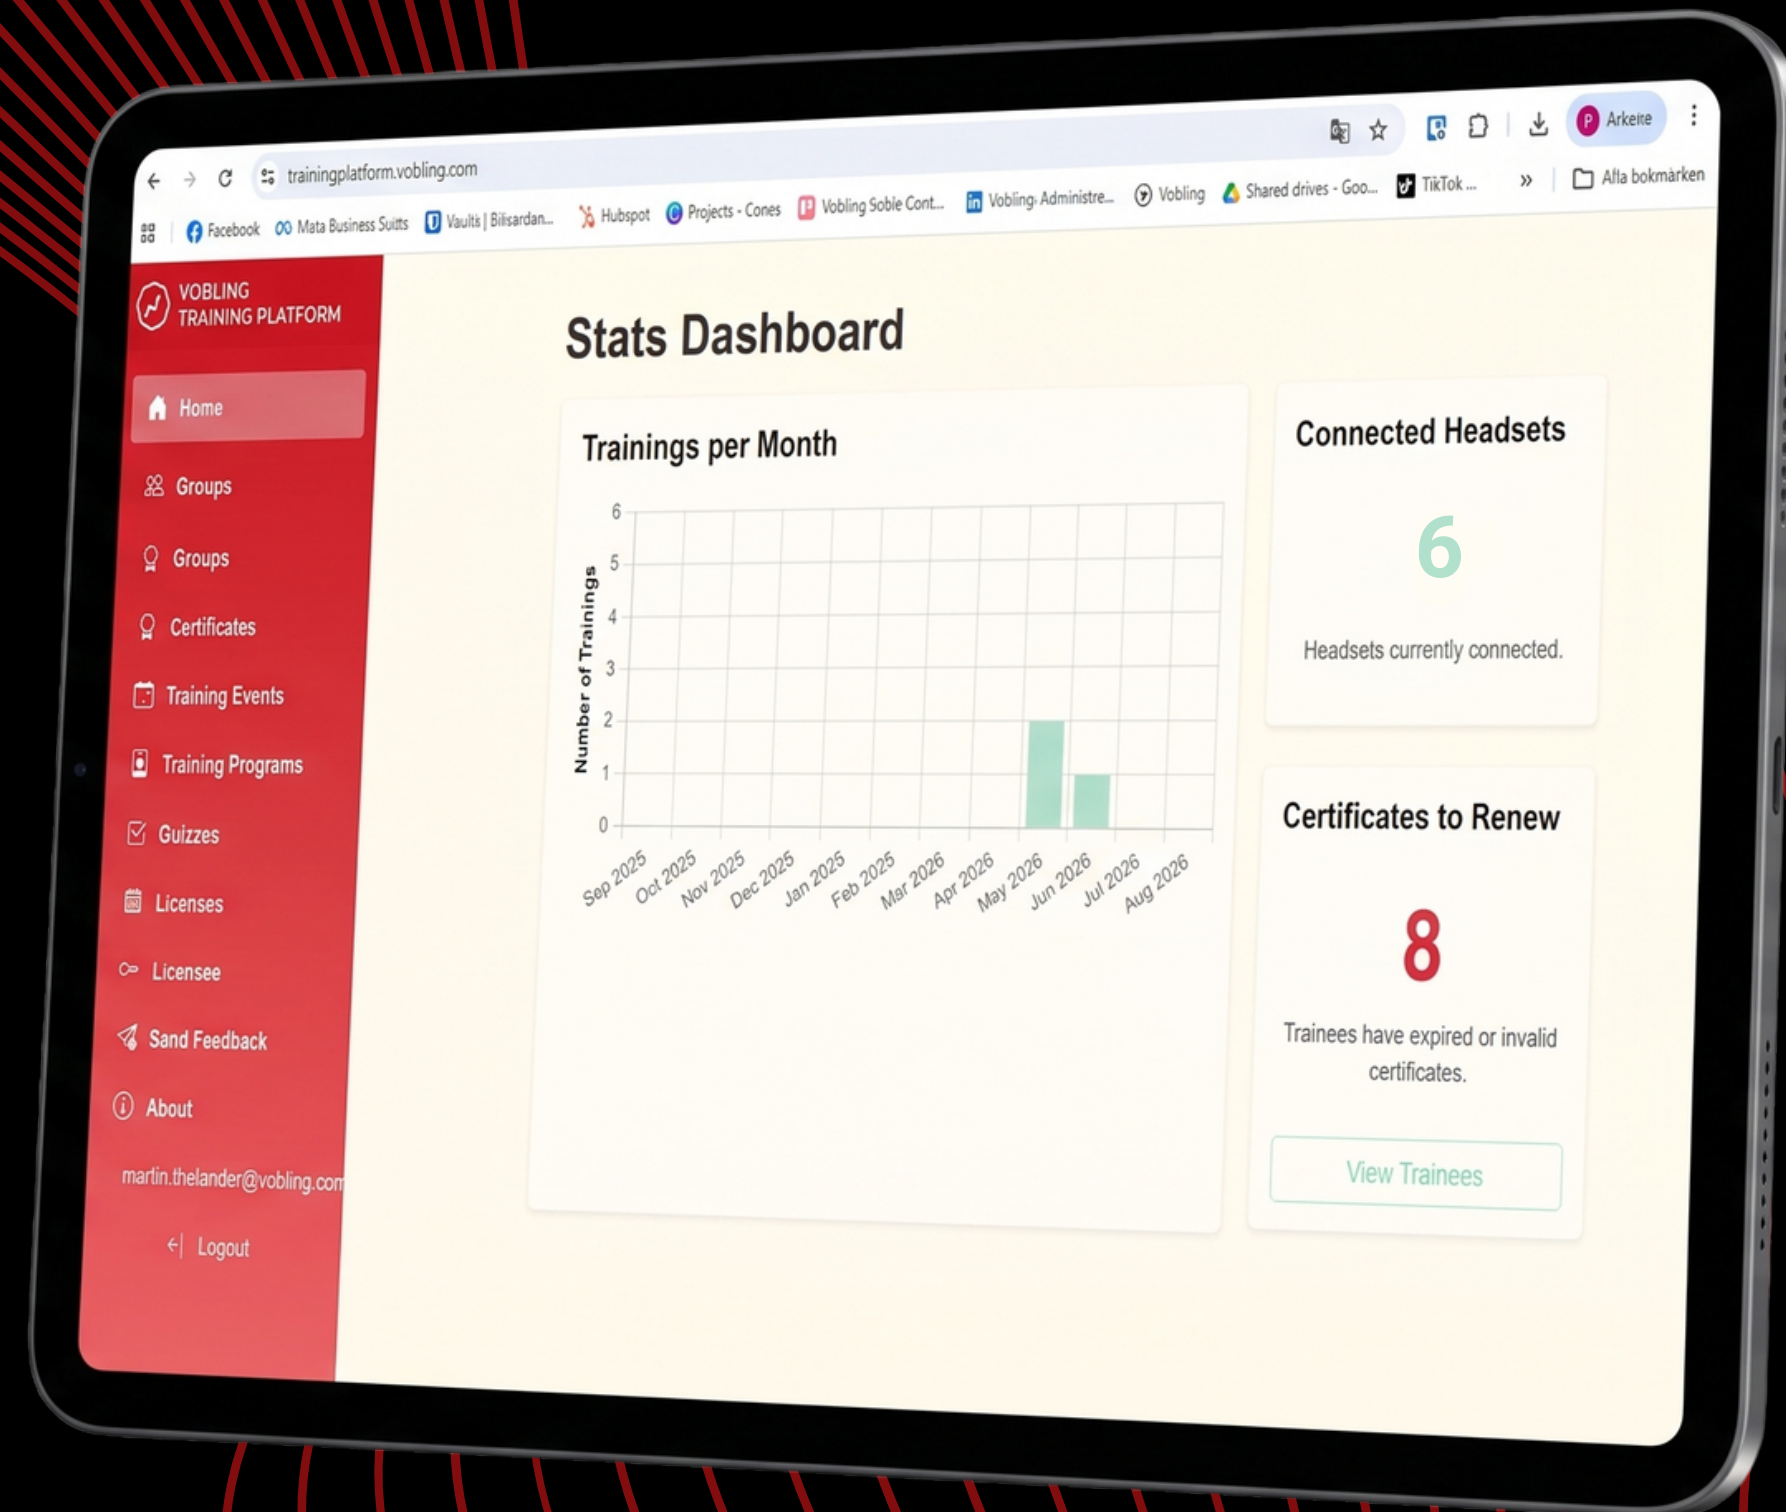

IDENTIFY GAPS

Spot who needs training
and take action.

IMPROVE OUTCOMES

Use data and analytics
to drive better results.

MORE CONTROL. STRAIGHT FROM THE PLATFORM.

You can now control even more of the VR Fire Trainer experience directly from the Vobling Training Platform.

WHAT YOU'LL BE ABLE TO CONTROL

START TRAINING PROGRAM

Start training programs directly from the platform.

CENTER & MOVE MENUS

Center & move menus in the headset for the user.

RESTART SCENARIOS

Restart scenarios in the headset directly from the platform.

SET EXTINGUISHER EFFICIENCY

Adjust extinguisher efficiency settings.

SEE CURRENT SCENARIO

See which scenario the headset is in.

SEE HEADSET BATTERY

Check the headset battery level.

SEE EXTINGUISHER BATTERY

Check the extinguisher battery level.

SEE IF PIN IS INSERTED

See if the safety pin is inserted.

SEE WHO IS USING THE HEADSET

See who is currently using the headset.

SEE HEADSET TYPE

See which headset is being used (HTC, Meta).

Save time

Manage training more efficiently.

Better oversight

Keep full control of every session.

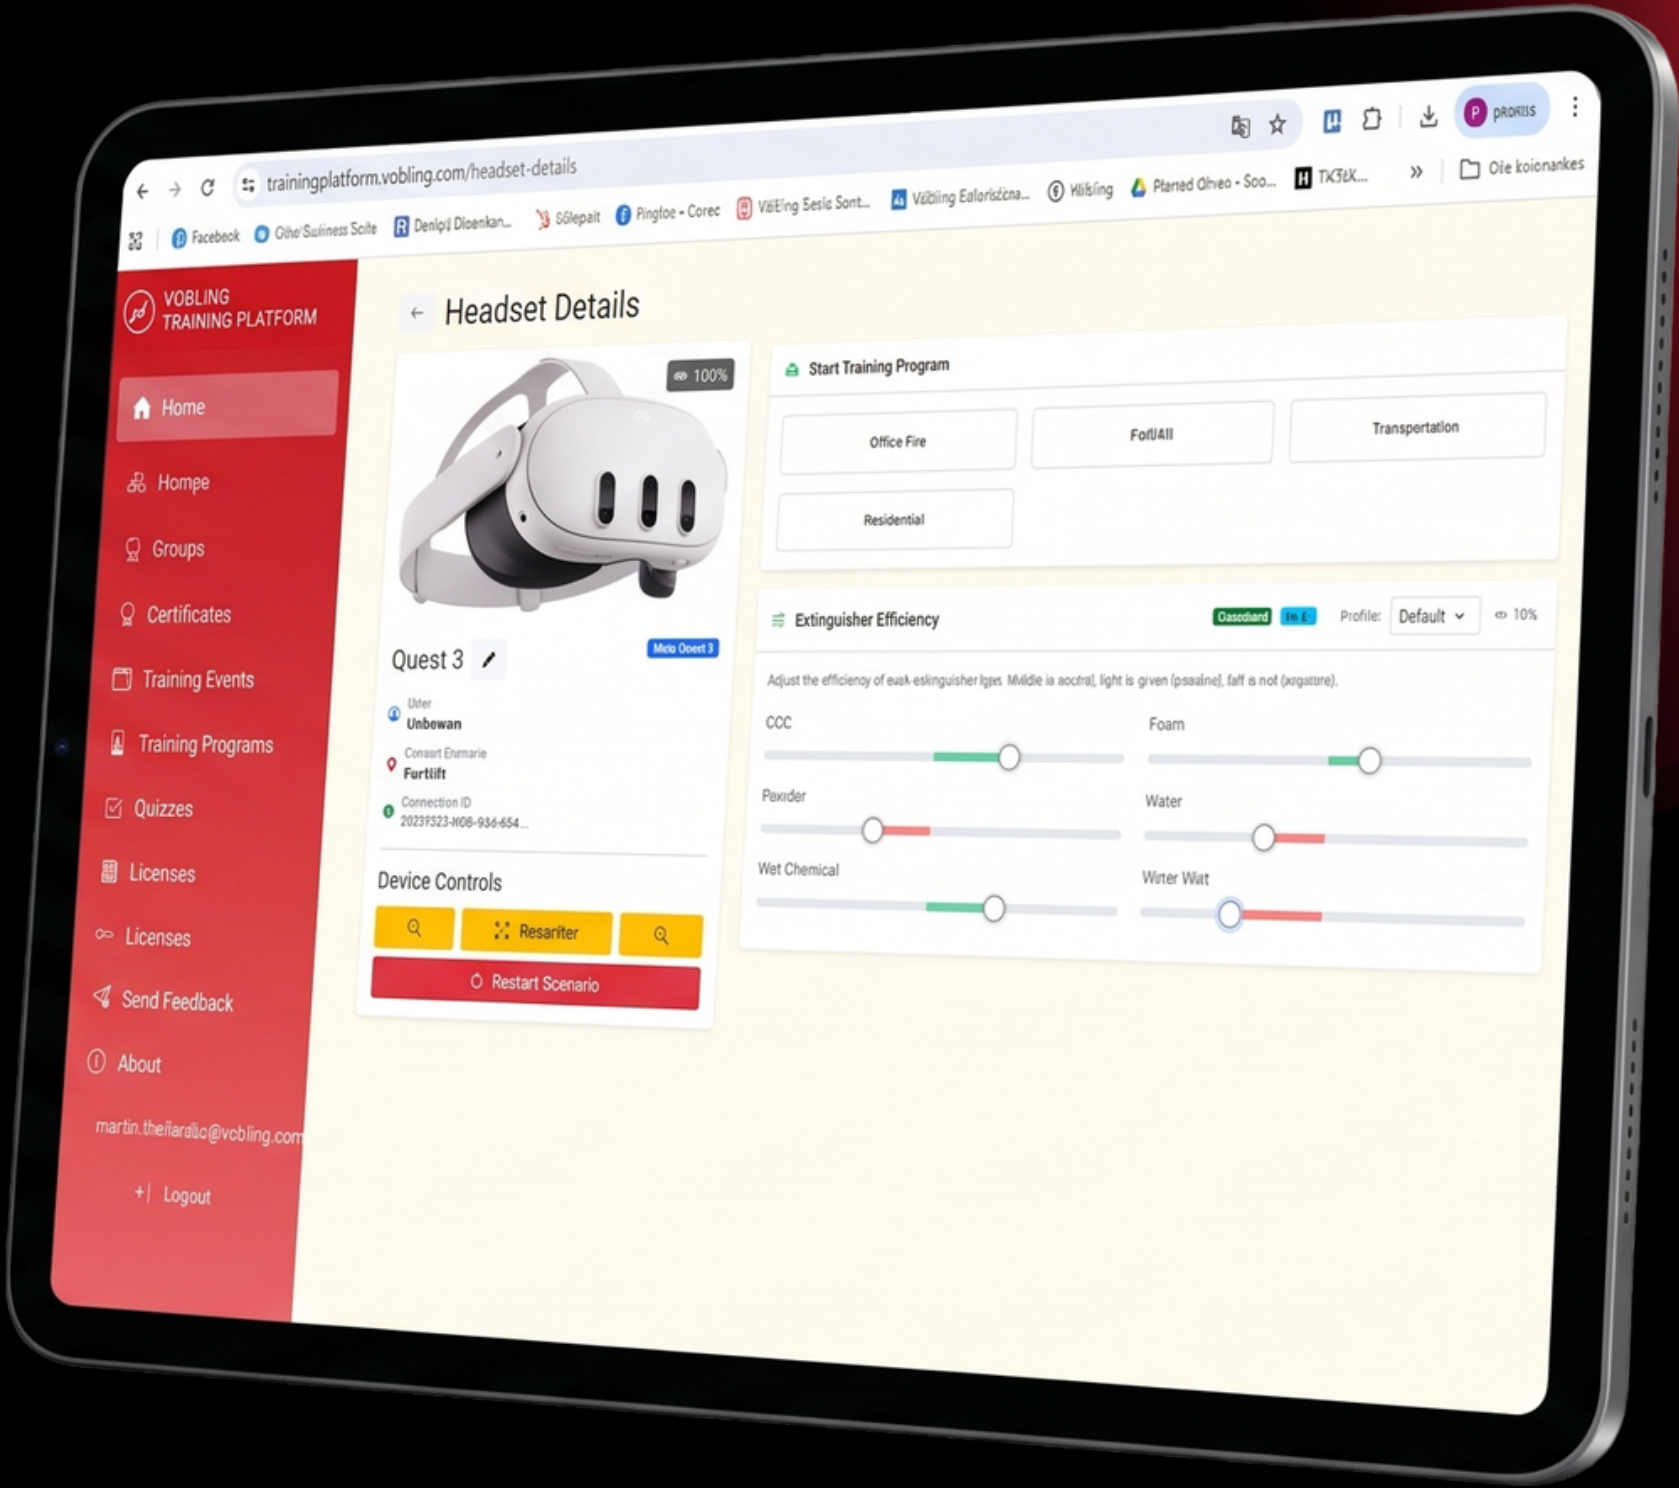

Improve training

Focus on what matters - effective training.

Data in real time

Get the information you need, when you need it.
